Stones

About Us

“The only place where success comes before work is in the dictionary.”

In Al Yasat, we religiously abide by this fundamental. Founded in the United Arab Emirates in 1999 and established in three countries, we in Al Yasat have been known to please customers with our superior stones, polished finishes, and classic interiors.

Stones that look as dazzling as the night sky, stones that look as captured electricity; we believe that every granite, marble, and sandstone tell a story. And it is these exquisite stories we persevere to obtain from trusted quarries and provide to our customers in the form of state-of-the-art floors, counters, walls and so on. Laying the perfect floor for a couple's house or astutely creating the counters of a client's first office with honed pieces, our work has crystallised relations with our clients and we hope to continue to do so. Backed by the latest state-of-the-art machineries for cutting, tile press, polishing and curing, it also operates its own fleet of vehicles that guarantees key delivery and safe transport of its products in the UAE.

With all our efforts, we promise to emboss your perfect houses and offices into a beautiful reality.

A photograph of a staircase made of light-colored marble tiles with dark veining. The tiles are laid in a rectangular pattern on the steps and a matching floor is visible at the bottom. The lighting is soft and even.

Black Marquina

A modern living room interior featuring a large wall of light-colored travertine tiles. The wall is divided into vertical panels. A black flat-screen TV is mounted in the center. Below the TV is a long, low black console. To the left and right of the TV are decorative elements: a black floor lamp, a vase of white flowers, and a tall black vase. In the foreground, a black coffee table holds a vase of yellow flowers and a small decorative object. Two light-colored sofas are positioned on either side of the coffee table. The ceiling is white with recessed lighting.
